

Free Presentation for Kansas Homeowners

Save Money with Home SOLAR PANELS

Going solar today:

- Saves you money
- Helps the Earth
- Supports local self-sufficiency

It couldn't get any easier. How it works:

- 1) Cromwell will come look at your roof and power needs and put together a cost-saving package for you
- 2) They take care of all permits and inspections, using certified, professional installers to put a great-looking solar array on your roof.
- 3) They guarantee the performance of the system and all maintenance is covered. Your electricity keeps flowing like always, only its cleaner and costs you less.

Tuesday, April 22

7:00-8:30 pm

St. Pius X Church

5501 Woodson, Mission, KS

Come learn about Cromwell Solar's

Zero Hassles Lease Program

\$0 Down

\$0 Installation

\$0 Maintenance

\$0 Out of Pocket

Generate your own electricity, pay a monthly leasing fee that is less than your normal electric bill, and eventually own the system instead of throwing your money away to the utility company.

Cromwell Solar (www.powertomorrow.com) is the only Kansas company making this offer, so come find out all the details and ask all the hard questions. Invite your Kansas friends to come too!

Talk is sponsored by St. Pius X Catholic Church and the Sustainable Sanctuary Coalition. For more info, call Carol, 913-677-8672, or Stanci March from Cromwell, 720-288-7922.
